Gen. No. 07 CH 2178

FILED
JUN 23 2009
Shirley G. Spick
CIRCUIT CLERK

INJUNCTION ORDER

THIS MATTER COMING ON TO BE HEARD for trial and the Court having heard testimony and reviewed evidence submitted during the course of the trial, with the Court granting the relief requested by Plaintiff in part and with the Court denying the relief requested by Plaintiff in part and with the court with the Court being fully advised in the premises,

THE COURT FINDS, AS FURTHER SET FORTH IN THE RECORD ATTACHED HERETO, AS FOLLOWS:

That based on the evidence before it the use of one 36-volt electric trolling motor would at cause any environmental or safety hazards on Highland Lake.

The Plaintiffs have proved that motorboats are an unreasonable use of Highland Lake. The size, tranquility, and customs of the lake all dictate against the use of motorboats, the

noise and speed of which would create an unreasonable interference with the peace and tranquility of the lake.

3) The Defendants have proved that the use of 36-volt electric trolling motors are not an unreasonable use of the lake and will not create the problems associated with motorboats generally.

IT IS HEREBY ORDERED:

Count I - Declaratory Judgment

With respect to Count I the Court declares that motorboats are an unreasonable use of Highland Lake.

Count II - Injunction

The Defendants Thomas Vaid, Karen Vaid, Jack Johnson and Barb "Dee" Geler are enjoined from using any motorboat on Highland Lake except for boats with a single electric trolling motor powered by no more than a 36 volt battery.
